Product Description

Product Description:

Full Spectrum 12V 120LM Grow Lights

Introducing the Light Bar Module, a high-performance LED lighting system perfect for any indoor or outdoor application. Featuring a full spectrum COB LED Chip, this light bar provides up to 50000 hours of reliable, consistent illumination. The beam angle is 120°, allowing for wide illumination coverage. The aluminum material construction makes the Light Bar Module suitable for a variety of environments. Plus, the white light color makes it a perfect addition to any home or office. With its superior craftsmanship and high quality components, the Light Bar Module is a great choice for anyone looking for a long-lasting, full-spectrum LED lighting solution.

Features:

Product Name: Light Bar Module

Plug Type: EU / US Plug

Package: Retail Box

Power: 12V

Application: Indoor & Outdoor

Features: Cob Grow Lights

Technical Parameters:

Parameter	Value
Product Name	Light Bar Module
Type	LED
Luminous Flux	120 LM
Beam Angle	120°
Waterproof	IP67
Lifespan	50000h
GW	0.3kg
Working Temperature	-20°C~+50°C
Plug Type	EU / US Plug
Application	Indoor & Outdoor

Applications:

Light Bar Module from Newspectrum

Light Bar Module from Newspectrum is a powerful lighting solution for both indoor and outdoor applications. It is equipped with COB LED chip technology, providing high and stable lumen output, while consuming less energy. The Light Bar Module is designed to work well at a wide range of temperatures, from -20°C~+50°C. With a 2-year warranty and plug type options of EU/US Plug, it is perfect for all your indoor and outdoor lighting needs.

For those seeking a unique and flexible lighting solution, the Newspectrum Light Bar Module is the perfect choice. Its COB LED chip technology offers high brightness and long-lasting durability. Its wide temperature range and 2-year warranty make it an ideal choice for both indoor and outdoor applications. Plus, with EU/US plug type options, it can be easily installed in any environment.

Customization:

Customized Light Bar Module from Newspectrum

Our Newspectrum Light Bar Module is a one-of-a-kind full spectrum grow light with COB LED chip technology. It has a wide beam angle of 120°, and offers a coverage area suitable for both indoor and outdoor grow spaces. This grow light is designed

with an optimal working temperature range of -20°C to +50°C, and comes with a 2-year warranty and an impressive 50000h lifespan.

Support and Services:

Light Bar Module Technical Support & Service

At Light Bar Module, we are passionate about providing excellent technical support and service to all of our customers. Our team of knowledgeable and experienced professionals are here to help you find the best solutions to your needs. We are committed to providing reliable, efficient, and cost-effective support and service.

We offer several support options, including a comprehensive online library of product information, technical documentation, troubleshooting tips, and FAQs. In addition, we provide phone and email support for our customers with any technical questions or concerns. Our knowledgeable staff is available to provide assistance and answer any questions you may have. We also offer on-site installation and maintenance services for our products.

At Light Bar Module, we are dedicated to providing superior customer service and support. We strive to ensure that all of our customers are satisfied with their purchase and have a positive experience with our products and services. If you have any questions or concerns, please contact us and we will be happy to help.

Efficient Heat Dissipation

No fan

No noise

Multi-angle adjustable

IP65 Waterproof

Are you still worrying these problem?

Easy to wither? Many pests? Low output?

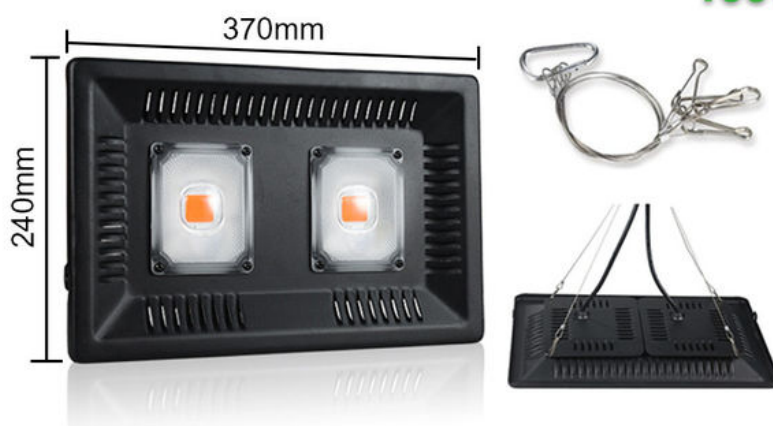

Don't worry !
