# Advanced Aluminum COB Grow Lights For Professional Cultivation

## Product Description:

Light Bar Module – Full Spectrum Grow Lights

The Light Bar Module is a powerful and efficient full spectrum grow light designed for indoor gardens. This LED-based module features a working temperature range of -20°C to +60°C and a luminous flux of 1200 LM. Its small size of 170mm\*114mm\*1.6mm makes it perfect for tight spaces. This reliable and durable light bar is ideal for hobbyist and professional growers alike, providing full spectrum lighting for a variety of plants.

Light Bar Module is the perfect addition to any indoor garden. Its full spectrum design ensures that plants receive the light they need to thrive, while its compact size makes it easy to install in any space. With its durable construction and reliable performance, Light Bar Module is the perfect choice for growers who need to maximize their growing potential.
